**XHT and Predator quality begins with the steel**

**1**  
Our steel incorporates boron, carbon, manganese, and other materials that ensure that it is the perfect steel for lawn-mower blades. It is amazingly strong, yet still able to be sharpened in order to provide a perfect cut for your lawn. This steel is then loaded into our press where it is stamped to the exact specifications of the original blade. How do we ensure this? Turn to page 235 to find out.

**Ariens**

**Quality at every single step**

Quality does not happen accidentally. XHT and Predator blades reflect our disciplined and determined pursuit of perfection at every step in the process. This ensures that our blades will live up to the most demanding expectations: yours. Once the blades are stamped, machines check and humans verify the integrity of the blade. What happens next? Turn to page 251 to find out.

**How to properly measure your blade**

**This diagram illustrates the correct way to measure your lawnmower blade**

1. Measure blade length diagonally, cutting tip to cutting tip
2. Measure the diameter of the center hole
3. Measure the center to center distance of outside holes
4. Measure width at the widest part of the blade

**PRODUCT FACTS**

### Why is it important to balance mower blades?

An unbalanced blade can cause vibrations that can damage mower bearings and crankshafts, reduce power, cause excessive vibration, poor cut quality, and result in an uneven cut. Make sure to balance your blades every time you sharpen. See page 336 for our selection of blade balancers.

### The blades take shape

Once our blades are stamped, they are sharpened and formed into the shape that you recognize. This process takes an incredible amount of force to bend the steel in order to produce our easily recognizable Predator mulching teeth, mulching humps, air lifts and other features that help provide the performance that you expect in a blade. Turn to page 261 to see what happens next.

**Why do I need to sharpen my mower blades?**

Dull or poorly sharpened mower blades can lead to many lawn problems. Dull blades can shred grass leaving it susceptible to fungus, disease, and/or infestation. Regular maintenance can help keep your lawn healthy by keeping your mower blades sharp and in balance. Sharp and balanced blades ensure a clean, even cut. See page 336 for Sunbelt's mower blade sharpening tools.

**Ready for heat treatment**

4  
 These blades were part of a roll of steel just a few minutes ago. They have been pressed, formed, sharpened, tested, weighed, measured, and inspected. That is all the simple part of the process. Once all of this is complete, the blades get heat-treated. This part of the process hardens the blades and makes them suitable for extreme mowing conditions. Turn to page 277 for the next step.

## Marbain® starts where other blades stop

Our patented Marbain process makes XHT and Predator blades 25% - 40% harder than typical blades that have been only heat-treated. This is what sets XHT and Predator blades apart. When the process is complete, these blades are the longest-lasting, safest, and most impact-resistant lawnmower blades available. For the next steps in the process, turn to page 285.

**XHT quality in a mulching blade**

Our Predator blades are made with the same hardened steel and heat-treated with the same proprietary process as our XHT blades. That makes them 25% - 40% harder than similar looking mulching blades. Lots of blades have teeth, only Predators have XHT.

**XHT and Predator quality from start to finish**

6  
Once our blades have gone through all the steps needed in order to transform them from steel to XHT, we continue our pursuit of quality. Before the blades are painted, they are tested one last time to make sure that they meet our standards. This blade is about to be tested to make sure that it has the appropriate hardness. The finishing touches are added on page 303.

### Not all blades are made the same

Other blades may look like an XHT blade or a Predator blade, but Sunbelt's blades feature a unique steel called Marbain® that offers increased hardness as well as resistance to bending and impact damage. This results in a cutting edge that stays sharper, longer. That sharper edge gives a cleaner cut, keeping your lawn healthy and green.

### Sprays to protect your mower

#### Mo-Deck Spray

When used regularly, MO-DECK non-stick spray for mowers dramatically reduces adhesion of grass clippings and deposits to mower deck preventing clipping build-up and clogging. Mo-Deck: so slick, grass won't stick. 11 oz. can.

**B1AC287**

\$8.00

#### Undercoating Spray

Tite-Seal Spray Auto Body Undercoating spray from Solder Seal/Gunk seals against moisture, dirt, and other corrosives. Use to protect mowers, tractors, farm implements, and automobiles from rust and corrosion. 16 oz. can, 12/case.

**B1AC128**

## Xtreme Hardness & Toughness and Predator

The last steps in the process are painting, labeling, and packaging. Our blades are painted to prevent rust. Additionally, we put a label on each blade with the part number, bar code, and cross-reference information. Finally, we box our blades so that ordering and shipping is convenient as possible. Only now are these blades ready able to be called XHT and Predator.

**Blade Buster Blade Clamp**

The Blade Buster is a universal lawn mower blade clamp that saves both time and effort. It mounts directly to the mower deck and holds the blade safely and securely while the blade bolt is loosened and tightened. Simply turn the handle and the Blade Buster locks to the deck trapping the blade inside. Blade Buster comes packaged for retail display.

**B1DL100** \$12.00

See pages 335-336 for our complete line of blade grinders, sharpening stones, and other tools and accessories.

**Tips to improve mower performance**

1. Keep mower blades sharp and the deck thoroughly clean.
2. Run the throttle wide open only when mowing. This will ensure that optimal blade tip speed is obtained for best cut quality.
3. Slow down. Try to match your ground speed to grass conditions. In most cases, slower ground speeds will give a better cut.
4. Try not to cut more than 1/3 of the grass blade off in any single mowing.
5. Make sure that your deck is leveled according to the manufacturer's specifications.
6. For best appearance, change your mowing pattern each time you mow. If you must mow in the same direction, change the starting point of your first pass each time you mow.
7. If you have a riding mower, be sure to adjust your deck wheels so that they are just off the ground when the mower is parked on a hard surface. This adjustment allows the mower deck to follow the contour of the ground while preventing scalping where the ground is rough or uneven.

## It's important to keep a good blade on your edger.

New blades are more efficient and cause less wear and tear on your equipment. We offer a complete line of replacement edger blades for most manufacturers. We also have many universal blades designed to fit any application. Please see page 337 for a complete list of all our edger blades by size.

### AYP

**Bel Ray Foam Filter Spray Oil**

Bel-Ray Foam Filter Oil's new and improved formula is ultra-viscous for the highest levels of engine protection and fast-drying for more convenient maintenance. It creates a highly tacky barrier for superior filtration without restricting air flow. Able to trap micron-sized, airborne particles that can cause engine damage and performs exceptionally well in dusty environments. Bel-Ray Foam Filter Oil is waterproof, so it will not wash off, clog or gum up when the filter gets wet. Delivers all of the performance benefits of Bel-Ray's pour type oil in an environmentally friendly aerosol package.

### 4-Cycle Engine Oil

Sunbelt 4-cycle engine oil is a high-detergent oil specially designed for small air cooled four-cycle engines. It provides superior oxidation, anti-wear, bearing corrosion, and deposit control while meeting warranty requirements for Briggs & Stratton, Tecumseh and other small engine manufacturers.

Product No.	Size	Case Qty	Price
<b>B1AC47</b>	20 oz.	12	\$3.70
<b>B1AC50</b>	48 oz.	6	\$6.90

**SAE 10W-30 Multi-Weight Oil**

1 qt./Case quantity: 12  
**B1AC402** \$6.50

**Oil Seal**

Dipstick seal for engines with extended plastic dipstick. Screws into engine base. OD: .936" Replaces B&S 281370, 281370S, 68838.

**B1BR26** \$2.00

**Oil Drain Valve**

Mounts permanently to Briggs & Stratton and Kohler engines with 3/8" NPTF drain plugs. Comes with drainage hose and instructions.

**B1AC1959** \$9.00

**Magnetic Oil Plug**

3/8"-18 NPTF thread. Replaces B&S 92738, 690289 and Kohler X-305-4, X-305-4-S.

**B1AC14** \$4.50

**Oil Plug**

Fits most small engines. Nylon. Replaces B&S 66768, 281658, 281658S and Tecumseh 27625.

**B1SB2681** \$0.90

**Oil Dipstick**

Fits GX160 engines. Replaces Honda 17230-ZE1-820.

**B1HD0025** \$4.90

**Oil Drain Valve**

Mounts permanently to engine. Connect any 1/2" hose when draining oil. 3/8"-18 NPTF thread. Replaces Kohler 25 462 08, 25 755 14, 25 755 14-S.

**B1AC52** \$9.60

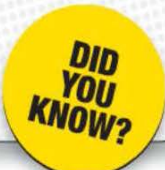

**Plastic Drain Pan**

Oil-resistant, all purpose plastic pan with built in, raised rim handles. 12" diameter, 4" deep. 6 quart capacity.

**B1PG77** \$16.50

<b>B1SB8247</b>	8" OD. 48 teeth	\$19.50
<b>B1SB8248</b>	9" OD. 54 teeth.	\$23.20
<b>B1SB8249</b>	10" OD. 60 teeth.	\$25.70

**Disc Brake Assembly**

Fits gasoline powered scooters and mini-bikes. Use with our B1SB490 Replacement Brake Pucks.

**B1SB488** \$13.10

**Brake Drum**

2" ID x 4" OD x 1" H. Popular Indus pattern. Universal mounting holes 5/16" and 3/8". Steel.

**B1SB485** \$6.50

**Brake Band and Pin**

Replacement parts for our B1SB485 Brake Drum.

**B1SB486** \$17.40

**Replacement Brake Pucks**

Replacement brake pucks for the most popular disc brakes. Sold in pairs.

Round. 1-1/8" OD, 1/2" H.

**B1SB489** \$2.70

Flat-end type. Use with our B1SB488 Disc Brake Assembly.

**B1SB490** \$2.70

**Brake Cable**

Universal. 65" inner cable. 60" outer casing. Use with our B1SB267 Mini-Bike Wire Swivel Stop.

**B1SB264** \$2.30

**Brake Cable**

For use with disc brakes. Complete with spring and U clamp. 56" length.

**B1SB266** \$5.60

**Key Stock**

Sold in 1 ft. lengths.

Product No	Description	Price
B1SB5600	3/16"	\$1.45
B1SB5601	1/4"	\$2.00
B1SB5602	5/16"	\$2.40
B1SB5603	3/8"	\$2.90

**Mini-Bike Throttle Cables**

Complete with inner cable and housing. Ball on one end, barrel on the other.

Product No	Description	Price
B1SB261	For 48" control. 43" outer casing. Use with our B1SB267 Mini-Bike Wire Swivel stop.	\$3.40
B1SB262	For 53" control. 48" outer casing.	\$2.30
B1SB263	For 60" control. 55" outer casing. Use with our B1SB267 Mini-Bike Wire Swivel Stop.	\$2.40
B1SB269	For use on all terrain vehicles. 100" cable length. 90" outer casing. Use with our B1SB267 Mini-Bike Wire Swivel Stop.	\$6.20

**Kill Switches** 48" lead wire. For use on go-karts, ATV, etc.

Product No	Description	Price
B1WE2	Kill Switch	\$3.00
B1SB7728	Toggle type	\$5.40

**Mini-Bike Throttle Controls**

With twist grip and dummy grip (metal). Sold as a set.

Product No	Description	Price
B1SB257	For 7/8" handle	\$15.00
B1SB258	For 1" handle	\$17.80

**Twist Grip Ferrule**

Used on many twist grips to hold housing in place. Order in multiples of 10.

**B1SB268** \$1.80

**Mini-Bike Wire Swivel Stop**

Universal wire stop. Use with our B1SB261, B1SB269, and B1SB264 throttles and B1SB264 brake. Also works as a wire swivel. Order in multiples of 10.

**B1SB267** \$0.60

**Wire Stop**

Used to secure inner wire to engine. Order in multiples of 10.

**B1SB219** \$1.30

**Grease lubrication points**

Most equipment manufacturers recommend greasing lubrication points every 25 hours. In some cases, failure to follow this guideline can void the equipment warranty.

**Max-Torque Clutches**

Max-Torque clutches are designed, engineered and manufactured to deliver exceptional performance. They are unique and original in design and engineering. Others have copied the design, but they are not able to duplicate the performance and reliability engineered into the Max-Torque clutch.

Product No	Description	Price
<b>B1SB864</b>	3.2" OD, 3/4" ID. For A or B section belts.	\$63.00
<b>B1SB455</b>	3/4" ID. 12 teeth. #35 chain.	\$37.00
<b>B1SB456</b>	5/8" ID. 11 teeth. #35 chain.	\$37.00
<b>B1SB457</b>	3/4" ID. 10 teeth. #40, 41, 410 chain.	\$37.00
<b>B1SB458</b>	5/8" ID. 10 teeth. #40, 41, 410 chain.	\$33.00

**Set Screw**

AS-1414-F. Order in multiples of 10.

**B1SB119** \$0.40

**Centrifugal Clutch Key**

3/16" x 3/4". Order in multiples of 10.

**B1SB461** \$0.47

**Max-Torque Max Lube Clutch System**

This patented clutch system is manufactured with special features that extend the life of ordinary centrifugal clutches. For 3/4" crankshafts with 5/16" thread in hole. Grooved bushing for grease retention. Ground sleeve with hole for grease. Patented 3/4" long zerkbolt fitting. Built-in internal key. No set screws required.

Product No	Description	Price
<b>B1SB7680</b>	12 teeth. #35 chain	\$42.00
<b>B1SB7681</b>	10 teeth. #41 chain.	\$42.00
<b>B1SB8489</b>	Replacement zerkbolt fitting	\$6.50

**Clutch Collars**

Complete with set screws.

Product No	Description	Price
<b>B1SB467</b>	Heavy duty. 5/8" ID. 1/2" H	\$1.90
<b>B1SB468</b>	Heavy duty. 3/4" ID. 9/16" H	\$2.00
<b>B1SB7329</b>	Locking. 1" ID. 5/8" H	\$2.10

**Bearing**

Free-spinning bore. For live axles. 1-1/4" ID.

**B1AC63** \$18.00

**Bearing**

1" rear axle bearing. Comes with collar.

**B1AC64** \$12.00

**Spindle Bearing**

3/8" ID. Used in go-kart spindles. High speed.

**B1AC60** \$3.30

**Sprocket Bushings**

For 3/4" clutch. 1" OD x 7/8" ID.

**B1SB465** \$3.20

For 5/8" clutch. 7/8" OD x 3/4" ID.

**B1SB466** \$3.20

**Steering Wheels**

1/2" CH. (3) 1/4" mounting holes. 1-3/8" center-to-center.

Product No.	Description	Price
<b>B1SB5890</b>	10" ID	\$21.80
<b>B124128</b>	12" ID	\$24.70

**Torque-A-Verter Belts**

--

Product No	Description	Price
<b>B1AC393</b>	5/8" x 27-3/8". Comet #200393A.	\$25.00
<b>B1203591</b>	3/4" x 29-9/32". Fits Manco, Carter Brothers, and many other Go-Karts.	\$24.30
<b>B1AC589</b>	3/4" x 27-3/8". Cogged. Comet #203589A	\$18.00

**ATV Cover**

ATV Covers are made of a rugged fabric that won't stretch or shrink. A special coating ensures maximum water repellancy. Covers are UV and mildew-resistant. Each cover features a storage bag, an elastic cord in the bottom hem, and dual rear air vents.

Product No.	Description	Price
<b>B172113</b>	75" L x 45" W x 35" H	\$49.00
<b>B178443</b>	85" L x 48" W x 40" H	\$54.00

**ATV Tank Organizer**

Keep clothing, food, GPS tools and more within easy reach with these handy ATV fuel tank organizers. Installation is quick and easy on all standard ATVs. Attaches to vehicle using gas cap and hook and loop tape. Two zippered pockets keep essentials within easy reach. The foam back helps to damage. Additionally, the heavy-duty UV resistant ProtekX™ Extreme fabric with PVC backing provides extreme weather and abrasion resistance. Comes with 1 year manufacturer's warranty.

<b>B172779</b>	Timber Camo	\$30.00

### Steel Pulley Assortment

Assortment contains 21 pulleys from 2-1/4" OD x 3/8" ID to 4" OD x 1" ID. They are turned and dressed for "A" section (1/2") belts.

**B1SB749** \$186.00

Part No.	Qty.	Dimensions	Price Each
B1SB751	1	2" OD x 1/2" ID	\$6.30
B1SB752	1	2" OD x 5/8" ID	\$6.80
--	1	2-1/4" OD x 3/8" ID	--
B1SB753	1	2-1/4" OD x 1/2" ID	\$17.30
B1SB754	1	2-1/4" OD x 5/8" ID	\$6.80
--	1	2-1/2" OD x 1/2" ID	--
B1SB756	1	2-1/2" OD x 5/8" ID	\$6.80
B1SB757	1	3" OD x 1/2" ID	\$6.80
B1SB758	1	3" OD x 5/8" ID	\$6.90
B1SB759	1	3" OD x 3/4" ID	\$6.90
--	1	3-1/4" OD x 1/2" ID	--

Part No.	Qty.	Dimensions	Price Each
B1SB761	1	3-1/4" OD x 5/8" ID	\$7.20
B1SB762	1	3-1/4" OD x 3/4" ID	\$6.70
B1SB763	1	3-1/2" OD x 1/2" ID	\$6.80

B1SB765	1	3-1/2" OD x 3/4" ID	\$7.20
B1SB770	1	3-1/2" OD x 7/8" ID	\$7.80
B1SB773	1	3-1/2" OD x 1" ID	\$8.60
B1SB766	1	4" OD x 1/2" ID	\$7.70
B1SB767	1	4" OD x 5/8" ID	\$8.20
B1SB768	1	4" OD x 3/4" ID	\$7.50

### Idler Bushing Assortment

This assortment contains 114 reducer bushings in 12 of the most popular sizes used in most idler pulley applications.

**B1SB7842** \$107.00

Part No.	Qty.	Dimensions	Price Each
NOPART1	10	.313" ID x .390" Shoulder Height x 12mm HT	\$2.00
NOPART2	10	.375" ID x .270" Shoulder Height x 12mm HT	\$2.00
B1SB7846	10	.375" ID x .310" Shoulder Height x 12mm HT	\$1.60
B1SB7847	10	.375" ID x .410" Shoulder Height x 12mm HT	\$1.60
B1SB7849	10	.375" ID x .460" Shoulder Height x 12mm HT	\$1.60
NOPART3	10	.375" ID x .510" Shoulder Height x 12mm HT	\$2.00
NOPART4	7	.375" ID x .590" Shoulder Height x 12mm HT	\$2.00
NOPART5	10	.500" ID x .270" Shoulder Height x 12mm HT	\$2.00
NOPART6	7	.500" ID x .760" Shoulder Height x 12mm HT	\$2.00
B1SB7851	10	.375" ID x 17mm Shoulder Height x 12mm HT	\$1.60
NOPART7	10	12mm ID x 17mm Shoulder Height x 12mm HT	\$2.00
B1SB7852	10	.500" ID x 17mm Shoulder Height x 12mm HT	\$1.60

### Engine oil

#### Pro Mix Ultra

Professional grade 2-cycle engine oil with semi-synthetic formula provides ultimate protection. 1 gallon mix pouch, 48/case.

**B1AC48** \$1.00

#### Pro Mix

2-cycle engine oil formulated to meet TC-3 Spec and reduce formation of deposits and build-up. 1 gallon mix bottle, 48/case.

**B1AC240** \$1.10

#### SAE 30 Oil

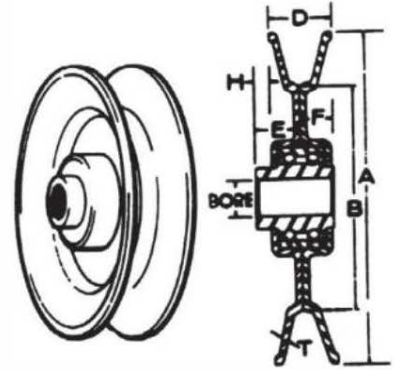

High detergent SAE 30 4-cycle engine oil with superior oxidation and anti-wear properties. 48 oz. bottle, 6/case.

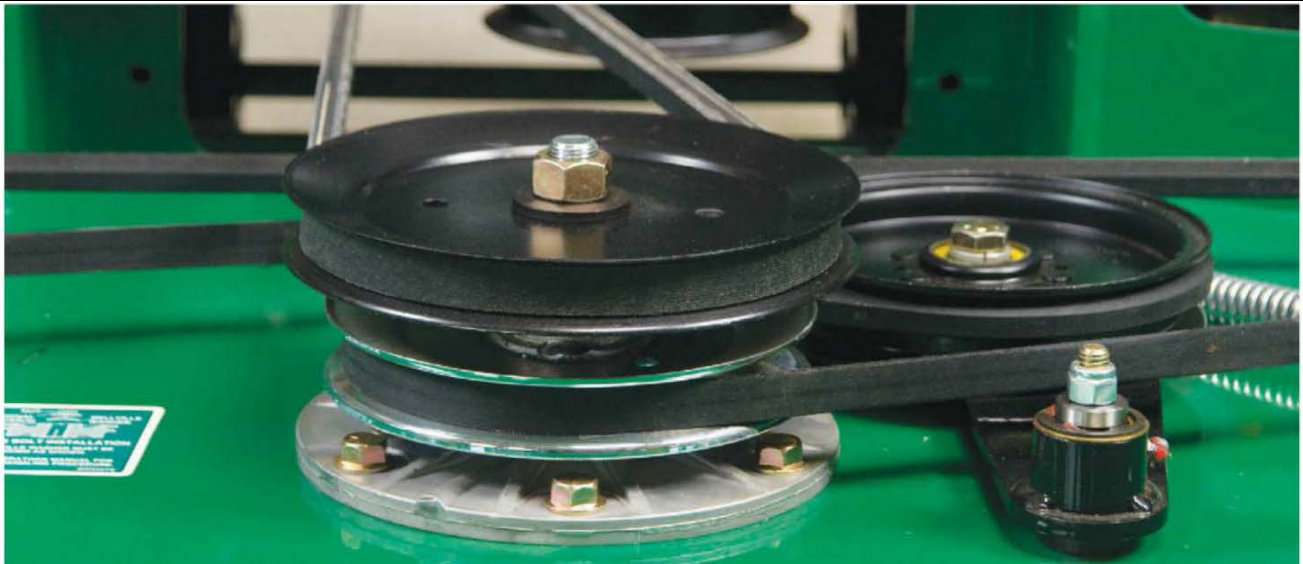

**B1AC50** \$6.90

## Hydrostatic Pumps and Motors

We proudly carry original Hydro-Gear pumps, motors, transmissions, filters, and seal kits. Hydro-Gear is a world leader in the design and manufacture of quality hydrostatic drive systems for the lawn and garden industry. Because Hydro-Gear works with the original equipment suppliers, you can be sure that these pumps match the exact specifications and requirements of your equipment.

### Spray-PRO Liquid Sprayer

The Spray-PRO is a revolutionary new product designed to take the work out of spraying your lawn, sidewalk, driveways, paths, and gardens in spring, summer, fall, and for winter ice control. With a spray width of 3' - 5' and up to a 13,000 sq.ft. coverage, the B1EWS25 will make quick work when spraying herbicides, pesticides, fungicides, liquid ice control products, or fertilizers. Our 2-mode valve allows for either Transport or Spray operation and is selected high on the handle. While in Transport mode, the B1EWS25 pump continues to operate agitating the material in the tank for a desired mixture. The B1EWS25 includes three different nozzle tips of fine, medium, and coarse, for controlling your application rates within your spray coverage. The B1EWS25 has a 6.6 gallon capacity self-agitating tank and does the job of several tank sprayers and without the pain of carrying them in hand or on your back. The B1EWS25 has a ground driven pump, no battery, operates at walking speed, and pushes no harder than a small spreader. Designed for commercial use, this sprayer will perform under daily use by contractors, as well as the occasional use of the homeowner with equal results.

6.6 gal/25liter Tank capacity with coverage from 6,600 - 13,000 square feet \*

- New Mark II Ground driven pump
- Self-Agitating Tank
- 13" stud type pneumatic tires on rustproof poly rims
- No load pull-back system
- Heavy-duty epoxy powder coated "Diamond" chassis
- 3-position height adjustable handles for comfortable use
- 2-mode valve for spray or transport
- Easy to push high-speed gearbox
- 5-Year limited warranty

Carlisle has a long history of manufacturing tires and wheels for the lawn and garden industry. We offer an unmatched breadth of line filled with proven tread patterns and durable rubber compounds to meet every specialty tire need. Carlisle's strong position as a supplier of tire and wheel assemblies to Original Equipment Manufacturerers makes Carlisle the brand of choice for replacement needs. All of this is backed by Carlisle's industry leading two year warranty. Carlisle is a U.S. based company with a strong R&D and manufacturing presence in the U.S. supporting their commitment to innovation and quality.

### How to Measure Your Tire

SIZE	TYPICAL SIZE
(A) (B) (C) 16 x 6.50 - 8	Lawnmowers
(B) (D) (C) 4.10/3.50 - 4	Industrial; Go Carts

The diagram illustrates the 2 most common ways to measure Lawnmower and Industrial/Go Kart tires.

All Turf Handlers are non-highway Service tires

### Turf Handlers

These tires protect the turf without sacrificing traction and provide options for a variety of applications. The commercial grade compounds and tread designs of Multi Trac and Turf Master will keep the professionals busy. Homeowners often choose the Turf Saver or Turf Saver II. Whatever the job, we've got a Turf tire to handle it.

**Under and over inflated tires wear more quickly**

Always keep your tires inflated to the pressure recommended in your operator's manual.

## Smooth Operators

These tires make optimum contact with a variety of surfaces for easy-flowing traction and a smooth roll.

Use for: Wheelbarrows, transport vehicles, riding mowers, garden tractors and farm equipment.

### Prolonging the life of your tires

Did you know that ultraviolet rays from the sun can damage your tires and lead to premature failure? Store your mower indoors or cover your mower when not in use to prolong tire life.

All Turf Handlers are non-highway Service tires

### Big Biters

These All-Americans with their bar tread design put power to the ground for equipment that demands pure traction in hard and loose soil as well as snow.

Use for: Riding Mowers, Garden Tractors, Snowthrowers, Tillers, ATVs and Utility Vehicles.

#### AT 101 CHEVRON

### Skid Steer

These tires feature unique lug designs, heavy gauge side-walls, and premium materials. This ensures optimum service life. Key sizes incorporate built-in rim guard for increased protection against debris and lateral hazards. Use for skid steers, backhoes, and subcompact tractors.

## Tire maintenance

A tire can lose up to half its pressure and not appear to be flat. Always check the pressure in your tires before each use and keep your tires inflated at the maximum PSI recommended in your operator's manual. It is critical to follow the operator's manual specifications and not the pressure specification on the tires as the recommended tire pressure in the operator's manual may be different. Using the recommended tire pressure will help to ensure a more comfortable ride and help to prevent premature tire wear or turf damage.

### Carlisle tire service guideline

Proper tire care and safety is important. Carlisle recommends getting in the habit of taking five minutes every month to check your tires, including the spare. The most common problems for trailer tires are:

**Over-Inflation:** Tires are more likely to be cut, punctured, or broken by sudden impact when they are over-inflated. Over-inflation wears the center out faster than the outside edges.

**Under-inflation:** Tires that are under-inflated tend to get overheated. This can cause sudden tire failure that could lead to serious personal injury. Under-inflation can also reduce fuel economy through increased rolling resistance (soft tires make your vehicle work harder). When a tire is under-inflated, the shoulder of the tire bears most of the load and may show increased tread wear on the outside edges.

**Cupping or Dipping:** Cups or dips in the tread may be signs that wheels are out of balance or alignment, suspension parts are worn out, or axle damage is present.

**Uneven Wear:** If the edges of your tread take on a saw-tooth or feathered appearance, your wheels may be out of alignment. The condition is caused by erratic scrubbing against the road surface. The solution may be a toe-in or toe-out alignment correction.

## Tire Chains

For lawn and garden and snow thrower applications, our twist link ladder style chains provide added traction and are available in 2 or 4 link spacing. Our ATV chains feature a D shaped square link chain in a diamond pattern to keep the chain on top of the tread for superior traction. These chains are easy to install. Sold in pairs.

2 Link Chain
